To Whom It May Concern,

I am pleased to recommend **Mr. Jayesh Patil (DE24864)**, a student pursuing his **Master's in Computer Engineering** specialization in **Software Engineering** at the **Institute of Engineering and Technology (IET), DAVV, Indore**, for an internship opportunity at your esteemed organization.

During his academic journey, I had the opportunity to teach Jayesh **Advanced Database Management Systems** and **Design Patterns**. He displayed an excellent grasp of these subjects and performed remarkably well in both, showcasing his analytical thinking and problem-solving abilities.

Jayesh has also successfully worked on developing a **centralized placement cell website for Devi Ahilya Vishwavidyalaya (DAVV)** and currently serves as the **Placement Coordinator for the Master's program**. He is also the **Class Representative for the Computer Science Department**, demonstrating strong leadership and organizational skills.

I am confident that Jayesh's technical expertise and dedication will make him a valuable addition to your team.

Dr. Vaibhav Jain
Associate Professor, Department of Computer Engineering
Institute of Engineering and Technology (IET), DAVV
Indore, Madhya Pradesh
